

International Railway Industry Standard (IRIS) Seminar

BSI Management Systems invites you to attend a FREE seminar

Suppliers to the rail industry share a common purpose in seeking to provide increased reliability and continual improvement in terms of their business performance.

With issues such as safety, sustainability and risk at the top of the agenda, BSI Management Systems invites you to **attend a FREE seminar**. The seminar is designed to educate organisations on how achieving certification to the IRIS standard can help address the complexities and challenges involved in developing and growing a lucrative business, and to discuss the requirements for certification to this standard.

With guest speakers from UNIFE and Bombardier, the event takes place at **Whittlebury Hall, Towcester, Northamptonshire** on **20 November** from **1pm**.
